

USAVolleyball®

USAV STAR LOGO

===== USAGE AND GUIDELINES =====

The USAV Star logo was designed to represent an affiliation for region teams with USA Volleyball. The USAV Star logo is only produced in patches and placed only on team uniforms and training gear.

Patches will be ordered through:

www.promoplace.com/volleyball/usav-star-logo
John Lascelles
Corporate Attire & More
(941) 981-5940

Questions on logo usage contact:

Barbara Grice
barbara.grice@usav.org

USAV Star logo patches will come in two sizes to closely follow the guidelines for uniform rules. Follow all instruction as stated in the guidebook and instructions for home application.

Suggested: 3.25" width max.
suggested for general placement

Suggested: 2.5" width min.
suggested for sleeve placement

There can only be one USAV Star logo patch per (one) article of clothing or gear.

Provided that a set of uniforms are identical for all teammates with the exception of the libero, and the logo does not displace or disrupt the location or contrast of the number, then the logo is recommended to be placed per the attached guidelines but can be placed in other locations so long as the above condition is met.

HOME APPLICATION:

Disclaimer: Read instructions on fabric before applying heat. Fabric should be tested for high heat sensitivity in case of melting or scorching issues caused by the ironing application of patch.

Instructions for applying heat seal patches.

1. Heat Seal Instructions using a home iron. Temperature should be set at highest heat available. Suggested time=30 seconds. Maximum pressure (basically push as hard as you can)
2. The heat seal backing will work on most fabrics/materials but is not a permanent application with multiple washings/dryings. For permanence the patches should be sewn on the item(s).
3. Packaging. Normal packaging is 100 pieces per bag but we can package 50 pcs. or 25 pcs. per bag. There is no extra charge for ordering smaller increments.
